Your partner in manufacturing solutions
MAIN FOCUS AREAS

- Medical Electrodes
- Durable User Interfaces
- Consultation and Productization
DURABLE USERINTERFACES

-40°C to 100°C

Absolute reliability

Extreme wear resistance

Style and looks

For heavy duty use
QUALITY MANAGEMENT

• Screentec Assists our customers through:
  • Extensive documentation.
  • Knowledge of materials.
  • Design and production optimization.
MANUFACTURING SERVICES

- Fast prototyping: Minimum order amount 1pcs
- 0-series: For process, product, market validations
- Mass manufacturing: Capability to manufacture millions pcs / year

- Material know-how: Substrate, adhesives, inks, pastes, connectors
- Design know-how: From scratch to a product, process suitability
- Engineering know-how: Documents, 3D-models, equipment modifications
- Application know-how: Medical electrodes, user interfaces, sensors
## AVAILABLE PROCESSES

<table>
<thead>
<tr>
<th>Process</th>
<th>Remarks</th>
</tr>
</thead>
<tbody>
<tr>
<td>Flat bed screen printing</td>
<td>Sheet and R2R processes</td>
</tr>
<tr>
<td>Heat and UV-curing</td>
<td>Sheet and R2R processes</td>
</tr>
<tr>
<td>Lamination (also heat)</td>
<td>Sheet and R2R processes</td>
</tr>
<tr>
<td>Mechanical cutting</td>
<td>Sheet and R2R processes</td>
</tr>
<tr>
<td>Laser cutting</td>
<td>Sheet process (R2R coming H1/2020)</td>
</tr>
<tr>
<td>Dispensing</td>
<td>Manual and automated sheet processes</td>
</tr>
<tr>
<td>Assembly</td>
<td>Electrical components, mechanical parts final product assembly</td>
</tr>
</tbody>
</table>

RAPID SCALE-UP FROM SHEET TO R2R
